JUNE 23, 2004

DEAR BARBARA,

JOHNNY WINTER IS CURRENTLY UNDER THE TREATMENT OF TWO PHYSICIANS ONE IN BOSTON AND ONE AT YALE UNIVERSITY HOSPITAL. HE IS SUFFERING FROM AN ACCUTE ANXIETY AND STOMACH DISORDER AND IS ALSO IN THE PROCESS OF WITHDRAWING FROM MEDICATIONS THAT HE HAS STOPPED TAKING WHICH HE HAS BEEN ON FOR SEVERAL YEARS.

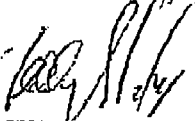

HE WILL BE UNDERGOING NUMEROUS TESTS NEXT WEEK AT YALE UNIVERSITY HOSPITAL SO THAT THE PHYSICIANS TREATING HIM CAN BEST UNDERSTAND THE PROPER TREATMENT.

JOHNNY IS ABLE TO TOUR WITHIN THE UNITED STATES USING A TOUR BUS WHICH ENABLES HIM TO BE NEAR HIS TREATING PHYSICIANS.

WE HOPE THAT THIS IS A TEMPORARY SITUATION BUT WILL KNOW MORE AFTER THE TESTS ARE COMPLETED

WE ARE ALL VERY SÖRRY FOR ANY INCONVIENCE THAT JOHNNY WINTER'S HEALTH ISSUES MAY HAVE CAUSED ALL INVOLVED.

SINCERELY,

TEDDY SLATUS

NEW ENGLAND SINAI HOSPITAL AND REHABILITATION CENTER

RE: Johnny Winter

To Whom It May Concern:

I am the treating physician for Johnny Winter, who is in the process of medication adjustment and supervision by myself for treatment effects. I feel that it would be detrimental to his health for him to undertake International Travel to Brazil at this time; at least for several months. It is reasonable for him to undertake local travel within the United States, where he can be closely monitored. He is thus incapable of traveling to Brazil for the near future.

Sincerely,

Lawrence S. Hotes, M.D.
